

delivering ^{actionable} knowledge

The online biopharmaceuticals reference
**Biopharmaceutical Products
in the U.S. and
European Markets**

"The most useful
and
cost-effective
resource..."

**The ONLY reference/
information resource
on biopharmaceutical
products!**

Improve your decision-making in biomanufacturing capacity, production and performance with this essential reference tool. With over 200 data graphs and tables with in-depth research on global biomanufacturers, you can find:

Over 580 product monographs

- Encyclopedic monographs concentrate on products' biotechnology and commercial aspects
- Database updated quarterly—now in 10th edition/generation, >1.1 million words, over 2000 pages
- All biopharmaceutical—recombinant and other proteins, monoclonal antibodies, vaccines, enzymes, blood products, radioimmune conjugates, cultured cells and tissues
- More than a directory—Detailed descriptions and indexing, includes competitive, technological and regulatory intelligence/assessments and much unique and hard-to-find information.
- Full text Web database subscriptions available at reasonable rates for individuals (by password) and organizations (by I.P. nos.)
- An essential resource—for general reference and competitive and technological intelligence.

**New! Analysis of 2010 FDA
Biopharmaceutical Approvals**

By the numbers

- **Over 580 product monographs**
Biomanufacturers and CMOs surveyed
- **Quarterly updates**
Direct industry suppliers
- **31** Countries represented
- **>1.1 million** words

Publisher:
BioPlan Associates Inc.—2011

BioPlan Associates, Inc. is a biotechnology and healthcare publishing and marketing research firm in Rockville, MD. We have worked with biopharmaceutical and life sciences companies since 1989.

"...amazing...a comprehensive source for product information...for market analysis, business development"

Search the Database for:

- Companies involved, partnerships and relationships
- Composition, biological and chemical aspects
- Products and active agents, biological activity
- Nomenclature, class
- Manufacturing methods and host systems
- Patents and patent disputes
- Technology transfer and licensing
- Regulatory history, status, approval dates, precedents
- Legal aspects
- Approved indications
- Market size, share, and total sales
- Competitive intelligence

The Reviews Agree!

“The most useful and cost-effective resource with the information you need to understand biopharmaceutical products and the industry.”

- *BioPharm International*, by Dr. Gary Walsh, Industrial Biochemistry Program, University of Limerick (Ireland) “truly an excellent reference source of biopharmaceutical information”
- *BioProcess International*, “A Useful Resource Defines the Biopharmaceutical Industry,” by Robert Shaw, Director of Commercial Development, Wyeth BioPharma “Anyone interested in the commercial side of the biotechnology industry in the United States today will benefit from this book.”
- *BioProcessing Journal*, BIOPHARMA is the king of biopharmaceutical reference books.
- *SIM News*, Society of Industrial Microbiology, Dr. John S. Williamson, Ph.D., Department of Medicinal Chemistry, School of Pharmacy, University of Mississippi “a truly one of kind publication.” “a must for any biotechnology library, including those in academia.”
