### **New 15th Annual Report and Survey on Biopharmaceutical Manufacturing Capacity and Production**

Rockville, MD, September, 2018 - Just released: The 15th Annual Report and Survey of Biopharmaceutical Manufacturing Capacity and Production is the most recent study of biotherapeutic developers and contract manufacturing organizations' current and projected future capacity and production.

This is the industry's definitive, quantitative analysis and includes 15 years of biopharma trends analysis and review of current opportunities. Includes in-depth coverage of critical issues affecting the industry!

This report's 511 pages of data-rich analysis will help improve your decision-making in biomanufacturing operations, with in-depth analysis of capacity, production trends, benchmarks, and much more.

For information on purchasing a subscription to the 15th Annual Report, contact Donnie E. Gillespie at +1 (301) 841-7578, or visit <http://bioplanassociates.com/biopharma-mfg-capacity-production/>.

For interviews, contact Eric S. Langer, President and Managing Partner of BioPlan Associates, Inc. He can be reached directly at +1 (301) 921-5979 or [elanger@bioplanassociates.com](mailto:elanger@bioplanassociates.com).

BioPlan Associates, Inc. has been providing custom market analysis for the biotechnology industry for almost 30 years. We deliver the actionable information you need to make smart, aggressive decisions. Our clients take self-assured, positive marketing actions, and they get more rapid, positive results. Our technology clients get the decision-making tools they need to make decisions today.
