**NEWLY UPDATED!**  
**100+ CHINA BIOPHARMA FACILITIES DATABASE**

**TRIMES COVERAGE:** Current and future facility capacity, plant technology, product lines, manufacturing capabilities, facility capacity, new technology capacity, single-line, multiple facility investment, cost, regulatory compliance.

**What's New: COMPLETELY UPDATED DATABASE:** A comprehensive directory with site and profiles for Top 100 China Biopharma facilities. Information on capacity, staffing, facility product, scale, management, business focus, R&D, business and operating strategies, strengths and weaknesses, and more. Database also highlights upcoming facilities, includes data on key markets and status of projects.

**BY THE NUMBERS**

- New over 100 Chinese owned, and part-owned biopharma facilities
- Increasing 100,000 capacity
- Includes manufacturing & greater than 100 biopharma companies
- Active manufacturing
- China database updated quarterly

**ONLINE CHINA TOP 100 BIOPHARMA MANUFACTURERS DATABASE**

- New 100 capacity
- Includes site profiles
- Facility strengths and challenges

**TOP 1000+ BIO-FACILITY INDEX AND BIOMANUFACTURES DATABASE**

**SUBSCRIPTION DATABASE**

The only biotechnology database subscription that tracks over 1000 biotech and biopharma manufacturing facilities/operations. Hundreds of facilities and commercial products, very comprehensive, detailed profiles, updated quarterly and over 1000+ facilities. Includes plant capacity, equipment and commercial sales. Updated since 2006 including comprehensive financial and operating, biotechnology, and other data. Includes plant capacity, equipment and commercial sales. Updated since 2006 including comprehensive financial and operating, biotechnology, and other data. Includes plant capacity, equipment and commercial sales. Updated since 2006 including comprehensive financial and operating, biotechnology, and other data.

**APPLICATIONS FOR THE TOP1000+ BIO-FACILITY INDEX AND BIOMANUFACTURES DATABASE**

- **Facility Rating:** Based on combination of qualified equipment, including bioreactors
- **Early Warning System:** Proactive alerts and real-time updates, alerting subscribers to new facilities
- **Real-time Market:** For facilities, based on regional and sub-regional facility counts
- **Key Personnel:** Search for critical roles, locations and other key personnel in your region
- **Company Ranking:** How to compare and rank, by employment, capacity and overall commitment

**WHAT YOU'LL GET**

- Initial Full Year Subscription: \$6,000
- 200+ plant and annual updates (2000+ facilities)
- 100+ facilities (Quarterly) Executive Summary (2000+)
- Detailed Quarterly and Annual Reports
- Annual Summary Report and Comparative Analysis (Quarterly & Annual)
- Regular updates and news
- Optional Access to live analysis by country and region
