BEST-IN-CLASS BIOTECH MARKET ANALYSTS AND STRATEGISTS

The best strategists and clients in biotech

Your path to Global Expertise

BioPlan Associates, Inc., a 30-year biotechnology strategy consultancy is recruiting a team of Best-in-Class market strategy analysts ready to apply their industry knowledge and experience. We provide our full-time biotech professional analysts with advanced market research, valuation, and strategy development training required to meet the complex business needs of the biotech and biopharma industry.

As a BioPlan Associate Program member, you will be working with some of the world's largest, most sophisticated biopharma and life sciences suppliers. You will also have the opportunity to work remotely with many early-stage biopharma supply innovators. Our clients will depend on you to bring their technologies to market. You will provide our clients the research data and strategic insights they need to make critical business decisions.

What You'll Need:

- You are science-oriented, know biotech or life sciences
- You are detail-oriented, and enjoy the challenges of building strategy from market data you collect
- You are a good communicator and enjoy interviewing world experts so you can turn data into strategy analysis

...we need you. With our research methods, your natural curiosity and drive will enable you to become a global expert. This is an ideal opportunity for you. We provide training, support, and an industry-competitive salary and benefits package. In return, we seek the brightest, most strategic critical thinkers who can learn the BioPlan data-driven methodology. Career progression can lead from Associate to domain expertise manager, to partner. We've delivered 30+ years of business results in the industry. Our strategists work remotely and deliver some of biotech's most respected qualitative analysis.

This program will support 3-6 new analysts per year.

- **Get Industry Exposure:**
You'll be teamed with experienced staff, but be expected to become the global expert in key areas. You'll be Primary Author on many industry articles and white papers each year.
- **Be recognized as the world's expert:**
You'll excel with deep knowledge in key biopharma areas
- **Learn Best Practices:**
For qualitative analysis, research techniques, valuation, market sizing, and due diligence
- **Get Certified:**
You'll receive certifications in Biomedical Valuation Training, due-diligence research, market analysis and other skills
- **Be on the front-line team with multi-billion-dollar Biopharma clients:**
Every project is geared toward strategy decision-making; Our clients are waiting for your insights!
