

## TOP 1000+ BIO-FACILITY INDEX AND BIOMANUFACTURERS SUBSCRIPTION DATABASE

The only bio-facilities database subscription that tracks over 1,500+ facilities worldwide manufacturing biopharmaceuticals. Hundreds of facilities with commercial products, many more supporting clinical production, account for well over \$10 billion in equipment and consumable sales. **Updated quarterly since 2008** and includes comprehensive information and insights. **Based on 30 years** of evaluating and benchmarking the biopharmaceutical and life sciences industry.

Top 1000+ Biopharmaceutical Facilities Index counts, indexes and ranks each facility, provides regional quantitative analysis of biomanufacturing regions and clusters.

Multiple fields included for analysis and comparative review:

- Overall total bioreactor liters
- Recombinant and other culture-produced proteins, antibodies, vaccines, cellular products
- Biomanufacturing-related employment
- Upcoming Biomanufacturing future capacity
- Number of commercial and clinical biological products

## APPLICATIONS FOR THE TOP1000BIO.COM

Knowing where biologics are manufactured is important to the industry and its suppliers. Manufacturing involves high cost, long-term commitments to the community and employment base. This data can be used for:

- **Facility siting:** Based on concentration of qualified employees; reduces hiring challenges
- **Sales territory allocations:** Determine where and how to staff territories; defines expectations for sales
- **Real estate valuation:** For facilities, based on regional and sub-region 'quality points for attractiveness
- **HR and Recruiters:** Look for a critical mass of educated and skilled staff is needed to establish a viable cluster
- **Companies, investors:** Regional development authorities & governments use the resource to define employment clusters
- **Industry Growth:** Where is the industry growing most rapidly, and by which indexed factors?
- **Emerging Regions:** Facilities in China, India, Russia, other developing regions? How rapidly are they growing?
- **Company Ranking:** How do companies rank overall, in employment, capacity and overall concentration?

## WHAT YOU'LL GET:

Initial Full 1-year Subscription: Based on number of users

Annual renewal Subscription: Contact BioPlan For more details

- Biofacilities Quarterly Newsletter (Free! normally \$950/year)
- Dashboard: Searchable and sortable
- Regular database updates
- Optional: Access to live analysts for queries and input
