

TOP100 China Bio FACILITY INDEX AND BIOMANUFACTURERS SUBSCRIPTION DATABASE

The only China Biofacilities Database subscription that actively tracks over 100+ dedicated China facilities manufacturing biopharmaceuticals.

Hundreds of facilities manufacturing clinical and commercial scale biologics, account for \$107.7 billion in sales in 20234 growing at 18% annually.

*Current Count
of China Facilities*

3 0 5

Based on 30 years of evaluating and benchmarking the biopharmaceutical and life sciences industry, this database is updated continually and includes comprehensive information and insights.

Top100 China Biofacility Index ranks each China facility and provides regional quantitative analysis of biomanufacturing regions and clusters

- Total bioreactor liter capacity
- CDMO/CMO service expertise
- Future Biomanufacturing capacity coming online
- Number of commercial and clinical biological products manufactured
- Revenue estimates
- Strengths and Challenges
- Technologies and expertise, and much more

USES FOR THE TOP100CHINABIO.COM

- **Identify your ideal China** partners
- **Identify specialized expertise** such as cell or gene therapy, pDNA, mRNA
- **Early-stage companies:** sponsors can identify potential manufacturing partners
- **Facility siting:** Locate qualified employees; reduce hiring challenges
- **Sales territory allocations:** Determine where and how to staff territories
- **Market Competition:** Identify China competitors' strengths and weaknesses
- **Real estate valuation:** For facilities, based on regional attractiveness
- **HR and Recruiters:** Looking for a critical mass of educated and skilled staff
- **Industry Growth:** Find where the industry is growing most rapidly
- **China Company Ranking:** How do China facilities rank, in skills, employment, capacity

WHAT YOU'LL GET

- Full 1-year Subscription
- Biofacilities Quarterly News letter (Free! Save \$950)
- Comprehensive annual review.
- Dashboard: Searchable and sortable
- Access to live analysts for queries and input
